

SUBSTANCE TRADE NAME **SAKARAT RODENT BARRIER**
 MANUFACTURER Killgerm Chemicals Ltd

ACTIVE INGREDIENTS

Methyl-, 0',0"-Butan-2-one- Tioximosilane, 3-(2-Aminoethylamino)-
 Propyltrimethoxysilane, stainless steel fibres

DESCRIPTION OF SUBSTANCE

Translucent with Stainless Steel Fibres

SUBSTANCE PROPERTIES

HAZARD STATEMENTS

R20 - Harmful by inhalation. R36/38 - Irritating to eyes and skin. R43 - May cause sensitisation by skin contact.
 R41 - Risk of serious damage to eyes. R51/53 - Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment

PRECAUTIONARY STATEMENTS

S24 – Avoid contact with skin. S37 – Wear suitable gloves.

ENGINEERING MEASURES

Ensure adequate ventilation is available

PPE REQUIREMENTS

PPE NOTES

Wear suitable PPE when applying Gloves

FIRST AID MEASURES	
SKIN	Wipe off excess material with cloth or paper. Wash skin thoroughly with soap and water. Get medical attention if irritation persists after washing.
EYES	Promptly wash eyes with plenty of water while lifting the eye lids. Make sure to remove any contact lenses from the eyes before rinsing. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.
INHALATION	Remove victim immediately from source of exposure. Move into fresh air and keep at rest. Get medical attention if any discomfort continues.
INGESTION	Immediately rinse mouth and drink plenty of water (200-300 ml). Give milk instead of water if readily available. DO NOT induce vomiting. Get medical attention immediately.

STORAGE PROCEDURES

Transport in a safe manner. Keep away from children. Do not store below zero degrees Celsius.

SPILLAGE PROCEDURES

Sweep up. Wipe area then wash area.

PRECAUTIONS IN USE

Store in original containers. Avoid contact with eyes & mouth. When not set, the product can be cleaned off surfaces with turpentine. Wear gloves to protect from rodent-borne disease.

ACTIVITY	POTENTIAL RISKS	CONTROLS
Storing/ transporting Insecticide	Possibility of spillage of proofing material when in transit between clients/sites.	All staff trained in the correct storage, transportation and spillage procedures of insecticides.
Contact with Contaminated Packaging.	Small quantities of proofing could be left within packaging.	Used packaging can be disposed of via non hazardous routes
Contact with contaminated PPE	Staff that did not replace PPE regularly could come into contact with proofing material when handling PPE.	Records are kept for PPE replacement. Staff training given on care of PPE. Line Manager check PPE

Summary

- Sakarat Rodent Barrier is particularly safe. It is deemed not a hazardous material neither to the environment nor human health when used under label directions.
- Technicians apply Sakarat Rodent Barrier in the field by means of a caulking gun
- Safe use of proofing materials depends on the proper use and maintenance of the PPE provided. Technicians are given full training in the use and care of PPE. Regular checks are made to Technician's PPE and records are kept. Line Managers regularly accompany Technicians and ensure that correct practices are being followed.
